

EUROPEAN EDUCATIONAL RESEARCH ASSOCIATION

A People's Union research challenge in the 9th Framework Programme

Under the auspices of EASSH, EERA and other associations have contributed to the consultation process of an SSH cluster in EU funding schemes.

The paper, written jointly with Civil Society Europe, is focused on three main points:

- A cluster with attention to People's Union
- The examples of areas of interests that you suggested in the consultation: Democracy, Inequalities, Culture and Art, and Education
- The importance to finance this cluster with a comparable budget to all the other clusters. This research not only is relevant but also addresses two of the Programme's priorities: gender balance and wider inclusion of Eastern European scholars

You can read the paper in its entirety [here](#)
