

What's on?

Conference Theme: Inclusion and Exclusion, Resources for Educational Research?

Inclusion and Exclusion, Resources for Educational Research? - In times of wars and conflicts, increasing numbers of migrants and refugees, impairment of a European identity through e.g. the Brexit, and, at the same time, of an increasing re-nationalisation and attempts to construct Europe as a fortress, it is the more important to reflect on and analyse the particular contributions of education and educational research to processes and structures of inclusion and exclusion
